

Home Page

The screenshot shows the Science Kids website with a navigation menu (Home, Experiments, Games, Facts, Quizzes, Projects, Lessons, Images, Videos, Topics) and a search bar. The main content area features the title "Geography for Kids" with a globe icon and a volcano icon. Below the title is a paragraph: "Explore the exciting subject of geography for kids with our range of fun facts, free games, interesting experiments, science fair projects, cool quizzes, amazing videos and more!" followed by another paragraph: "Learn about oceans, volcanoes, dust storms, glaciers, earthquakes and all kinds of interesting geography topics. As well as activities for children, there are also lesson plans and worksheets for teachers, ideas for parents and a whole host of free teaching resources for anyone interested in the subject of geography and learning about science online." There are also sponsored links for Wego and Emirates, and buttons for Games and Experiments.

Science Kids

Brief History

Rene Smith, the creator of the Science Kids website. Science Kids began in August 2007 as a product of my interests in science, geography, technology and education .

Scope and Coverage

It covers oceans, volcanoes, dust storms, glaciers, earthquakes, rivers facts, population and all kinds of interesting geography topics. There are also lesson plans, teaching resources, classroom ideas and worksheets for teachers, ideas for parents and a whole host of free teaching resources for anyone interested in the subject of

geography.

Kind of Information

All geographical related topics are disclosed in different ways for better understanding.

Headings	Type of information
Games	Fun games and interactive activities that will help users to understand the subject geography.
Videos	Educational videos on geographical area
Earth facts	Earth facts for kids and find interesting information about our world, including facts related to volcanoes, earthquakes, minerals, structures, gas and much more.
Lessons	Educational activities for kids, ideas for teachers to help bring interactive, hands on science to home or classroom.
Experiments	Geography based experiments
Images	Images of weather, disasters, space, glaciers, volcanoes, bridges, pyramids, lakes, rivers and more.
Quizzes	To know better about gases, weather, countries, rocks, volcanoes, population, weather and earthquakes etc, geography related questions are attached with this site.
Projects	Projects on geographical topic or experiments.

Special Features

- ❖ Science jokes are also available in this site.
- ❖ Links to <https://in.ixl.com>

Arrangement Pattern

Games, videos, earth facts, lessons, experiments, images, quizzes and projects are arranged under related topic.

Remarks

This is mainly a science project. It covers different subjects like geography, astronomy, biology, electricity, geology, health etc and science on each subject that makes the subject interesting.
